f. It was reported by [REDACTED] that the Director had been called to appear before the Armed Forces Committee for a hearing in connection with our proposed legislation. He stated the Director's testimony had been well received, with the result that the Armed Forces Committee will support this legislation.

g. The next matter brought to the Committee's attention was with regard to the State Department's implementation of their program for the Corps of Foreign Service Inspectors, and their recent announcement that the full complement of these inspectors was on [REDACTED] throughout.

h. A discussion followed as the result of a memorandum written by [REDACTED] to BLC requesting that arrangements be effected with the Department of State to insure our obtaining Foreign Service Serials and pertinent memoranda, inasmuch as a great many of the 280 administrative policies and procedures are now based upon Foreign Service Regulations. The suggestion was made that each unit survey its needs in this respect to ascertain just how many copies should be requested, in order that BLC could send a comprehensive statement to the Department of State outlining our requirements. It was decided to make this a matter for discussion on the agenda at the next meeting. In the meantime Mr. [REDACTED] stated he would go to the State Department to find out just what control of issuances was maintained by them.
